Surface Frame LED Panel 600x600mm Matel

Brand: ALFA

Reference: ALFA 29673

The surface frame for 600x600mm Matel LED panels is made of high quality aluminum with white powder paint finish. Its robust design is optimized for installation on suspended ceilings, ensuring durability and mechanical stability during continuous operating use in commercial environments.

Description

The 600x600mm LED Matel Panel Surface Frame is an essential component for modern lighting, designed to fit perfectly into suspended roof systems. Made with high quality aluminum technology, it guarantees exceptional durability and efficient thermal dissipation that protects the integrated LED modules.

Technical characteristics

- Material: High strength aluminium.
- Measurements: 600x600mm.
- Finished: White powder paint.
- Type of installation: Surface for suspended ceilings.

This frame provides a solid and aesthetic base for the luminous panels, ensuring that the light is evenly distributed across the space. Its robustness allows to withstand the stresses of the assembly without deformations, maintaining the visual integrity of the ceiling for years of continuous use in commercial environments.

The installation is easy thanks to the accessories included for fast mounting and fastening. It only requires placing the frame on the metal structure of the suspended ceiling and securing the anchor points with the provided screws, facilitating efficient start-up without the need for additional specialized tools.

Specifications

High	60
Width	60
Colour	White
EAN	8425160296735
Material	Aluminio
Measures	600x600mm.
Weight (kg)	0.458
Type of installation	Surface
