Description

The double-security chromed FAC lock HANDLOCK is an overlay device designed to maximize the protection of main accesses. Made of stainless steel with glossy finish, it integrates round safety cylinders both inside and outside, offering a robust barrier against unauthorized intrusions.

Technical characteristics

- Total measurements: 26mm thickness x 50mm height
- Material: Stainless steel with chrome gloss
- Cylinder system: Roundings with internal and external security blocking
- Key type cylinder: Points with 5 keys included
- Includes mounting screws for quick installation

This lock provides an additional layer of defense, allowing access control from both sides of the door. Its durable construction ensures reliable operation over time, resisting wear and adverse environmental conditions.

The installation is simple thanks to the screws included, adapting perfectly to standard entry doors. It is recommended to mount the aligned cylinders to ensure a smooth and safe operation of the locking mechanism.
