Description

The round Handlock inlet knob is a high-security lock system designed to ensure internal privacy and controlled external access through differentiated mechanisms.

Technical characteristics

- Diameter of the knob 53mm
- Rosette 65mm
- Compatible door thickness between 30/50mm
- Finished nickel matt metallic color
- Metal body in steel or zamak
- Includes 3 brass keys

This mechanism offers an interior condemnation to ensure privacy without the need for a key, while the exterior requires a lockable lock for secure and regulated access. The robustness of the metal body in steel or zamak guarantees long-term durability in residential and commercial environments.

The installation is simple thanks to the kit included with screwdriver and locksmith, allowing a quick assembly on doors of standard thickness between 60 and 70mm. The system fits adjustable by facilitating adaptation to different frames without the need for additional specialized tools.
