Vatton Straight Aluminum Level with Magnet 60cm

Brand: ALFA

Reference: ALFA 49380

Straight level Vatton 60 cm with impact and fall resistant aluminium structure. Includes magnetic base with neodymium magnet for secure fixation without leaving marks. It has three high visibility precision bubbles at angles of 0°, 45° and 90°, optimized for extreme conditions between -20 °C and +60 °C.

Description

The 60 cm straight aluminium level Vatton is a precision tool designed for alignment and leveling work in construction and DIY, ensuring accurate measurements thanks to its advanced technology.

Technical characteristics

- Structure of aluminium resistant to impacts and falls.
- 3 precision bubbles with high visibility in 0°, 45° and 90°.
- UV resistant materials between -20 °C and +60 °C.
- Fine accuracy of 0.8 mm/m and standard tolerance of 1 mm per metre.
- Detailed measurement scale in millimetres.
- Magnetic base with neodymium magnet for secure fixation.
- Plastic protections against impacts and extreme durability.
- Built-in orifices to easily hang the tool.

Its high precision allows perfect lines to be drawn without leaving any color marks, facilitating fast and reliable measurements on vertical or horizontal surfaces.

The installation is simple: place the level on the measuring surface, use the magnet to fix it if necessary, and read the bubbles on the corresponding scales to obtain the required alignment data.

Specifications

EAN	8425160493806
Long	60
Material	Aluminio
Weight (kg)	0.277
