Description

The Handlock Bathroom Pomo is a sanitary security accessory designed to ensure immediate privacy in shared spaces such as public bathrooms or changing rooms. Its inner handle technology allows instant unemployment in case of emergency, while the outside has a conviction to block access from outside.

Technical characteristics

- High strength matt black finish and metal body in steel or zamak.
- 65mm central rosette with adjustable lace between 60 and 70mm.
- Door thickness compatible between 30 and 55mm.
- Handle length available in 100 or 120mm.
- Internal security unemployment system without tools.
- Robust external privacy conviction.

This device offers the user peace of mind, ensuring that the door can be opened from the inside with complete freedom. Its robust and functional design integrates perfectly into demanding sanitary facilities, providing a higher level of safety against unauthorized intruders.

The installation is easy thanks to the kit included with specific screwdriver. It only requires adjusting the rosette to the exact thickness of the door and attaching the metal components according to the manufacturer's instructions for fast, safe and durable mounting in any humid environment.

Specifications

Colour	Black
