Onlex white flush socket base 16A 250V

Brand: ALFA

Reference: ALFA 23852

Embedded white 16A 250V Onlex socket base for wall installation. 10A 230V electric data according to supplier specifications. Compatible with Onlex range frames. Compact design and standard white finish. Secure connection for low power residual applications. It complies with current electrical regulations. Easy installation using mechanical fastening system.

Description

The Onlex S-EMPOTRAR recessable socket base is an essential electrical component designed for fixed wall installations, ensuring a secure and durable connection in residential and commercial environments. Made of high-strength materials, it allows perfect integration into modern electrical panels.

Technical characteristics

- Nominal power: 10A
- Service voltage: 230V
- Material: White flame retardant plastic
- Design: Compatible with Onlex range frames
- Regulations: Meets current electrical standards

This recessed plug offers a reliable solution for consumption points, ensuring stable operation without overheating risks. Its robust construction facilitates installation in any environment where access to electrical energy is required in a safe and efficient manner.

The installation is simple and fast, following the basic electrical connection regulations. It only requires fixing the base of the corresponding frame by mechanical system and making the connection bridges according to the electrical scheme of the project, thus ensuring immediate and safe commissioning.

without additional technical complications.

Specifications

Colour	White
EAN	8425160238520
Long	Compacto
Material	Plástico
Weight (kg)	0.0915
Nominal voltage (V)	230V
Type of installation	Flush-mounted
