White Horizontal Recessed Frame 5 Elements

Brand: ALFA

Reference: ALFA 23858

Embedded frame of the Onlex series with ABS finish and horizontal design for five elements. It has a system of easy installation that guarantees a secure and fast fixation. Its robust structure allows professional assembly in reduced spaces, optimizing the distribution of electrical or signalling components through efficient modular assembly.

Description

The five-component horizontal recessable frame is a modular system designed for aesthetic and functional integration into electrical and signalling installations. Made with ABS finishing technology, it guarantees durability and time resistance, offering a robust solution to organize multiple components in a single compact module.

Technical characteristics

- High quality ABS material finish
- Composition of 5 individual elements
- Optimized horizontal configuration
- Embossable design for wall integration
- Robust structure for professional assembly
- Fast and secure fixation system

This framework provides a solid basis for the installation of electrical devices, allowing orderly and secure access to internal components. Its structure facilitates the maintenance and future expansion of the system without compromising the visual integrity of the installation in reduced spaces.

The installation is done by recessed on the wall surface, ensuring a firm and leveled fixation. The process is simple and fast, allowing efficient assembly that minimizes work times and maximizes the

final quality of the electrical project through efficient modular assembly.

Specifications

Colour	White
EAN	8425160238582
Material	ABS
# Elements	5 elementos
Weight (kg)	0.0965
Type of installation	Flush-mounted
