Embed graphite switch ONLEX 10A 250V

Brand: ALFA

Reference: ALFA 24030

Onlex built-in graphite switch for installation in electrical frame, designed to handle 10A currents and 250V voltages. This device complies with electrical safety regulations and is integrated into frames of the same range.

Description

The S-EMPOTRAR GRAFITO ONLEX recessable switch is a high-reliability electrical device designed to control lighting circuits and plugs in residential and commercial installations. Made with advanced technology, it ensures safe and durable operation under normal conditions of use.

Technical characteristics

- Nominal power: 10 Amps
- Maximum voltage: 250 Volts
- Operating voltage: 230 Volts
- Housing material: Graphite
- Connection system: To be combined with frames of the same range

This switch offers optimal performance in the management of electrical charges, ensuring adequate protection against overloads and system failures. Its robust design allows an aesthetic and functional integration into any distribution box.

The installation is simple and follows current regulatory standards. It requires mounting within a compatible ONLEX series frame, ensuring perfect alignment and mechanical safety during daily use.

Specifications

Rated current (A)	10
Colour	Grafito
EAN	8425160240301
Material	ABS
Weight (kg)	0.0853
Nominal voltage (V)	250 Voltios
