Onlex 10A 250V Graphite Double Switch Flush Mount

Brand: ALFA

Reference: ALFA 24032

The S-EMPOTRAR DOUBLE GRAFITO ONLEX CONMUTATOR is a 10A and 250V recessing device designed for safe electrical installations. Its graphite mechanism ensures stable and lasting contact over time.

Description

The Onlex S-EMPOTRAR double recessed switch is a robust electrical maneuvering device for fixed low voltage installations, designed to ensure safe and durable control of circuits. Its graphite contact technology ensures a stable connection that resists mechanical wear and oxidation over time.

Technical characteristics

- Nominal power: 10A
- Nominal voltage: 250V / 230V
- Contact material: Graphite
- Type: Double switch
- Usage: Embedded in compatible frames

This device allows the simultaneous operation of two independent circuits, optimizing the space in electrical panels and facilitating the efficient management of residential or commercial loads. Graphite construction contributes to superior durability in the face of oxidation and usual mechanical wear.

The installation requires its direct insertion in frames of the same Onlex range, thus ensuring the electrical and aesthetic compatibility of the set. It is essential to respect safety distances and make connections in accordance with current regulations to ensure a correct and safe assembly in any environment.

Specifications

Rated current (A)	10
Colour	Grafito
EAN	8425160240325
Material	ABS
Measures	No se especifican medidas en el contexto
Weight (kg)	0.0974
Nominal voltage (V)	250V / 230V
Type of installation	Flush-mounted
