Product sheet

Onlex Graphite Wall Socket Base 16A 250V

Brand: ALFA

Reference: ALFA 24035

Embed base graphite plug Onlex 16A 250V for secure electrical installations. Compatible with frames of the same range and electrical data of 10A 230V. Material graphite resistant to heat and corrosion. Compact design to fit into concrete or brick walls. CE certification and current regulatory compliance. Professional solution for plumbing and residential electricity.

Description

The recessable Onlex S-EMPOTRAR GRAFITO plug base is a professional electrical component designed for fixed installations that require high safety and durability. Made with graphite technology, this piece guarantees optimal conductivity and thermal resistance, being essential to connect moderate power devices in homes and commercial premises.

Technical characteristics

- Nominal power: 10A
- Service voltage: 230V
- Conductive material: Graphite
- Certification: Onlex
- Compatibility: Frames of the same range

This recessable plug offers reliable performance to power standard appliances, portable tools and lighting equipment. Its robust construction ensures a stable connection that prevents electrical failures and protects circuits from frequent overloads in daily use.

The installation is easy by integrating with compatible Onlex system frames. It only requires following the basic embedded regulations, ensuring a perfect fit without the need for external adapters or additional structural modifications to the wall.

Specifications

Rated current (A)	16
Colour	Grafito
EAN	8425160240356
Material	ABS
Weight (kg)	0.0912
Nominal voltage (V)	230V
