Onlex Horizontal Flush Mount Graphite 5 Elements

Brand: ALFA

Reference: ALFA 24084

Horizontal graphite recessed frame with 5 elements and ABS finish for simple installations. Robust design that guarantees structural stability in technical applications. It facilitates the integration of electrical components through its modular configuration optimized for professional environments.

Description

The Embedded Horizontal Graphite Frame 5 Onlex Elements is an organizational system designed to protect and manage electrical components in distribution panels. Its robust construction technology ensures a safe and durable installation in demanding industrial environments.

Technical characteristics

- External finish in high strength ABS.
- Horizontal configuration optimized with 5 modular elements.
- Structural design that ensures stability and quick mounting ease.

This framework offers an efficient solution for the orderly management of cabling and devices, ensuring logical access to internal components. Its structure allows a fluid integration into standard electrical frames, facilitating the maintenance and future expansion of the electrical system.

The installation is done by directly fitting the system in the existing distribution panel. It is necessary to adjust the elements according to the required provision before definitively fixing the framework to ensure structural stability.

Specifications

Colour	Grafito
--------	---------

EAN	8425160240844
Material	ABS
# Elements	5 elementos
Weight (kg)	0.1006
