Description

The Vertical Graphite 3 Onlex Frame is an organizational system designed to integrate and protect electronic components in vertical environments within electrical cabinets. Its robust construction technology ensures a safe fixation, facilitating the maintenance and expansion of industrial installations with a clean finish.

Technical characteristics

- Finished in high resistance ABS material.
- Vertical configuration with capacity for 3 configurable elements.
- Compact design optimized for reduced spaces within the distribution box.
- Easy assembly without the need for complex tools.

This framework allows efficient cabling management and offers protection against mechanical interference, making it essential in control cabinets and electrical cabinets where order is a priority. Its versatility makes it suitable for various types of modules and standard devices, optimizing the space available.

The installation is done using a simple procedure: align the frame with the opening of the cabinet and fix it with the screws included, ensuring that the elements are perfectly fitted and stable for continuous operation. Its design facilitates a fast and safe installation, ensuring an orderly assembly with

professional aesthetic finishes.

Specifications

Colour	Grafito
EAN	8425160240851
Material	ABS
# Elements	3 elementos
Weight (kg)	0.0575
Type of installation	Flush-mounted
