Description

The Onlex White Embossing Frame with 2 Crystal Elements is a recessable lighting system designed to integrate luminaires into flat ceilings, offering a clean and functional aesthetic solution. Its technology allows the installation of two independent light points within the same frame, optimizing the space and light distribution in modern interiors.

Technical characteristics

- Front finish in transparent glass
- Main body in white
- Capacity for 2 light elements
- Compact design for false ceiling recessing
- Material resistant to oxidation and corrosion

This frame provides a solid base for LED or halogen luminaires, ensuring uniform light flow without visible edges that break the visual harmony of the environment. Its robust construction ensures durability in residential, commercial or office facilities.

The installation requires opening the false roof in the dimensions specified by the manufacturer to insert the frame accurately. It is recommended to use basic tools such as screwdrivers and small drills to attach the attachment elements to the structural support of the ceiling before connecting the power supply according to the provided scheme.

Specifications

Colour	White
EAN	8425160240875
Material	Cristal
# Elements	2 elementos
Weight (kg)	0.1267
