Description

The mini-Vatton woodpecker is a professional tool designed for precision work in wood, combining forging technology with an ergonomic handle that reduces fatigue during prolonged use.

Technical characteristics

- Total weight: 220 grams
- Head width: 25 mm
- Materials: Forged steel with heat treatment
- Mango: Fiberglass and synthetic rubber
- Design: Ergonomic for better grip

Thanks to its robust construction, this hammer offers high impact resistance and durability in DIY or industrial assembly environments. Its heat-treated head ensures that it is not deformed after multiple nail strokes.

Its fiberglass handle provides electrical and thermal insulation, while rubber in the grip improves traction even with sweaty hands, facilitating control in rapid movements.

The installation is immediate; it only requires a clean and dry workspace. For optimal handling, it is recommended to keep the wrist relaxed when hitting to avoid injury and ensure an efficient transfer of energy to the nail or piece of wood.

Specifications

Width	2.5
Diameter	25mm
EAN	8425160495190
Material	Steel
Weight (kg)	0.3417
