Description

The Reflective WorkFit Long Sleeve Polo is an industrial safety garment designed to ensure worker visibility in high-risk environments. Its technology combines breathable fabric with strategic reflective elements, ensuring thermal comfort and optical protection simultaneously under demanding conditions.

Technical Features

- Fabric composed of 65% polyester and 35% cotton.
- Weight of 180 g/m² for balance between lightness and strength.
- Reinforced double stitching at critical points of high friction.
- Reflective bands around the torso and arms contour.
- Collar with 3-button closure and contrast ribbed cuffs.
- High resistance to abrasion and continuous wear.

This attire offers superior protection for personnel operating under demanding conditions, maintaining uniform integrity against severe scratches or prolonged exposure to industrial machinery. Improved visibility significantly reduces accident risk in low-light areas.

Installation is immediate: it adjusts over standard underwear and the collar buttons are closed to ensure correct positioning of reflective tapes. Handling requires gentle washing with neutral detergents, avoiding bleach to preserve fluorescent color and the effectiveness of reflective elements in future workdays.

Specifications

Colour	Yellow
EAN	8425160495572
Material	Cotton
Weight (kg)	0.293
Size	M
