Description

The 700g Vatton formwork hammer is a professional tool designed for construction and carpentry tasks that require precision and controlled strength. Its manufacture with forged steel subjected to heat treatment guarantees an exceptional resistance against daily wear on site.

Technical characteristics

- Total weight: 700 grams
- Head material: Thermally treated forged steel
- Mango: Fiberglass and rubber
- Design: Ergonomic to reduce fatigue
- Main function: Nail removal and formworking

Its robustness allows to dismantle wooden structures without damaging the surrounding materials, being essential in phases of selective demolition and surface preparation. The combination of fiber and rubber on the handle offers a secure grip that minimizes the transmission of vibrations to the user during repetitive operations.

For installation or handling, simply hold the handle firmly and apply downward pressure to remove nails or gently tap on formwork slats. Weight balance facilitates prolonged use without compromising the operator's comfort, allowing them to work more efficiently in professional DIY or nail extraction projects.

Specifications

Width	2.5
EAN	8425160495664
Material	Steel
Weight (kg)	0.9333
