Description

The round Handlock input knob is a versatile security and access system, designed to provide internal privacy and external control through differentiated mechanisms in a single aesthetic piece. Its technology integrates two functions into a compact design that facilitates home management.

Technical characteristics

- Polished golden matted finish
- Inside knob with privacy conviction
- Exterior knob with key lock
- Includes 3 brass keys
- Adjustable lace 60/70mm
- Rosette 65mm
- Diameter of the knob 53mm
- Compatible door thickness between 30/50mm
- Metal body in steel or zamak
- Includes installation kit with screwdriver and locksmith

This accessory guarantees the security of the home by allowing exclusive access from the outside while keeping the privacy inside, ideal for main entrances where functional distinction is required without sacrificing design.

The installation is simple thanks to the complete kit that includes all the necessary screwdriver and the corresponding locksmith, adapting to different door thicknesses between 30 and 50 mm with a precise adjustable lace.
