Description

The safety lock T/FAC Handlock is a robust locking device designed to strengthen the protection of main accesses. Made of chrome-finished steel, it integrates an advanced locking mechanism that guarantees a firm and durable retention against unauthorized opening attempts.

Technical characteristics

- Dimensions: 27x50mm
- Surface finish: Chromium
- External cylinder: Safety round
- Internal cylinder system: Key type of points
- Includes: 5 spare keys and mounting screws

This overlay lock offers a higher level of security, acting as an effective physical barrier against intrusions. Its solid construction allows to resist high forces without deformation, protecting both the door and adjacent elements in critical situations.

The installation is simple by means of the screws supplied, adapting to various types of entrance doors. Once mounted, the external cylinder blocks direct access, while the internal system requires the included keys to operate, facilitating the control of inputs and outputs with maximum security.

Specifications

High	2.7
Width	5
Colour	Cromo
Diameter	27x50mm
EAN	8425160495916
Material	Steel
Measures	2.7 x 5
Weight (kg)	1.126
