Description

The SPUMA POLIURETANO COMPACT 300ML SPRAY is a single-component expansion system designed to seal, isolate and fill holes in construction materials. Its technology allows rapid application by manual applicator, ensuring superior adhesion on all types of surfaces.

Technical characteristics

- Pack size: 300 ml
- Product type: Compact polyurethane foam
- Application system: Spray with manual applicator
- Composition: Monocomponent
- Final finish: Soft and paintable
- Adherence: Compatible with multiple construction materials

This product offers significant benefits by providing effective thermal and acoustic insulation, eliminating cold bridges and improving the energy efficiency of buildings. Its expansion capacity allows complex irregularities to be filled out without additional tools.

The installation is simple: apply directly over the sealable hole, allowing the foam to expand and heal according to the manufacturer's instructions to achieve a durable and professional sealing.
