Adjustable Stein Sealer Steel Plastic Handle

Brand: ALFA

Reference: ALFA 49679

The Stein Mango Plastic sealant is an adjustable tool made of steel with an ergonomic impact-resistant handle. Includes toothed cutting blade to speed the process and adjustable voltage control. Compatible with tapes up to 50mm wide by 66m long, optimizing efficiency in industrial and daily logistics applications.

Description

The adjustable Stein sealant is an industrial tool designed to secure and seal packages by applying adhesive tapes. Its mechanical technology ensures precise cutting and uniform tension, optimizing efficiency in logistics packaging lines.

Technical characteristics

- Handle made of impact-resistant steel
- Knitted cutting blade to speed up the process
- Adjustable voltage control according to load
- Compatible with tapes up to 50mm wide and 66m long
- Ergonomic design to reduce fatigue in continuous use

This equipment offers a robust solution for fixing loads, ensuring the integrity of the product during transport. Its design allows quick sealing without the need for additional tools, improving operational productivity in warehouses and distribution centers.

The installation is immediate by placing the tape in the corresponding guide and adjusting the voltage according to the weight of the load. The handling requires a firm pressure on the handle to activate the cutting and sealing simultaneously, facilitating its use in dynamic working environments where high volumes of merchandise are handled daily.

Specifications

Width	66
EAN	8425160496791
Long	66 m
Material	Steel
Weight (kg)	0.331
