Vatton Mini Straight Aluminum Level with Magnet 15cm

Brand: ALFA

Reference: ALFA 49719

The mini Vatton level of 15 cm has aluminium structure resistant to impacts and falls, with magnetic base of neodymium that leaves no marks when plotting. It includes bubble with high visibility and fine precision of 0.5 mm/m, climbing in millimetres and UV protection between -20 °C and +60 °C for demanding work.

Description

The mini straight aluminum level Vatton is a precision tool designed for alignment and leveling jobs in demanding environments. Its robust structure ensures stability and durability, while the magnetic base facilitates its secure attachment to metal surfaces.

Technical characteristics

- Impact and fall resistant aluminium structure
- 0,5 mm/m fine precision
- High visibility bubble and high UV resistance
- Operating range between -20°C and +60°C
- Base with powerful neodymium magnet
- Detailed measurement scale in millimetres
- Plastic protections for maximum durability

Thanks to its high precision and visibility, this level allows accurate layouts without leaving color marks, ideal for projects that require technical rigor in construction or industrial maintenance.

The installation is simple: place the instrument on the surface to be measured or fix it using the magnet in ferrous metals. Make sure the bubble is scale-centered to confirm the perfect leveling before performing any final marking or measurement.

Specifications

EAN	8425160497194
Long	15
Material	Aluminio
Weight (kg)	0.127
