Onlex PC 16A 2T Adapter Independent Switch

Brand: ALFA

Reference: ALFA 24694

The Onlex PC 16A 2T adapter with integrated independent switch allows safe electrical distribution by two simultaneous sockets with ground connection. Built in white polycarbonate, it operates at 250V and 16A, offering child protection for use in homes, offices or workshops where multiple devices are required to be supplied in a controlled and stable manner.

Description

The Onlex PC 16A 2T adapter is a compact electrical solution designed to distribute energy safely and efficiently in spaces where multiple devices are required to be connected simultaneously. Made with high performance technology, it ensures stable operation under intense loads.

Technical characteristics

- Nominal voltage: 250V AC
- Maximum amperage: 16A
- Body in resistant white polycarbonate
- Integrated ON/OFF standalone switch
- Tomas with earth connection included
- Incorporated child protection

This device offers key benefits by allowing the simultaneous power of various equipment without saturating the main circuits. Its robust design ensures a safe electrical distribution in homes, offices, workshops or temporary events.

The installation is simple: place the adapter in a standard socket and use the independent switch to turn on or off the power of the sockets. Integrated protection avoids accidental risks, facilitating their use in environments with children.

Specifications

Colour	White
EAN	8425160246945
Intensity	16A
Material	Policarbonato
Weight (kg)	0.883
Power (W)	3680
Nominal voltage (V)	250V AC
