Description

The 230mm 18W Round Nordic Surface LED Panel is a modern light solution designed to deliver optimal performance in residential spaces with an integrated aesthetic finish.

Technical characteristics

- Power: 18W
- Luminosity: 1850 lumens
- Diameter: 230mm
- Thickness: 2,5cm
- Housing material: ABS+PS flame retardant
- Light panel: Acrylic LED
- Temperatures: 3CCT (cold, neutral, warm)
- Protection: IP20
- Energy classification: F
- Opening angle: 120° minimum

Its ultra-fine design and Nordic wood surface provide visual warmth, while instant electronic ignition ensures high energy efficiency without waiting times. This device adapts perfectly to corridors, lounges, bedrooms and bathrooms, providing versatile lighting that improves the functionality of any room thanks to its easy rotating anchor.

The installation is simple by means of its included fixing system, allowing quick assembly on different

surfaces. Its color management allows the environment to be adjusted according to the user's need, offering flexibility in interior lighting without compromising the aesthetics of space.

Specifications

Opening angle	120
Energy classification	F
Colour	Madera Nórdica
Diameter embedment (mm)	230
Driver included	Yes
EAN	8425160247157
Long	2.5
Lumens (lm)	1850
Material	ABS
Weight (kg)	0.528
Power (W)	18
Protection	IP20
Nominal voltage (V)	180-240
