Description

The Onlex Surface Smoke Detector is a safety device designed for indoors, which identifies the presence of smoke using sensitive optical technology. Its main function is to alert occupants to a possible emergency before a serious fire occurs, ensuring rapid and safe evacuation.

Technical characteristics

- Protection degree IP20 for use in dry environments.
- Alarm level not exceeding 85 dB measured at 3 meters away.
- It complies with ISO/DIS12239 technical standards.
- Surface assembly suitable for ceilings or walls.

This equipment offers an immediate response to the detection of suspended particles, providing tranquility and protecting lives in residences, offices and commercial premises. Its high sensitivity ensures that valuable time is not wasted during a crisis.

The installation is simple and requires fixing the detector in a high area free of direct air currents to optimize its performance. The basic maintenance consists of periodically checking its operation without the need to open the housing, following the manufacturer's instructions to ensure its continuous operation.

Specifications

Colour	White
EAN	8425160247379
Weight (kg)	0.234
Protection	IP20
