Description

This small silicone handle replacement is specifically designed for pot, ensuring a secure and durable connection in modern kitchen utensils. Made with high thermal resistance technology, it protects hands from extreme heat during daily handling.

Technical characteristics

- Materials: High-quality food grade silicone
- Resistance: Great thermal and mechanical stability
- Type: Compatible spare part for small pot
- References: Compatible with multiple existing models

The silicone used offers superior performance against high temperatures, ensuring that the handle does not deform or lose its functionality after repeated cycles of intense use in the kitchen.

Simple installation: Remove the damaged handle and adjust this new component according to the manufacturer's instructions. Check that the joint is properly settled before using the pot to prevent sudden leaks or movements during cooking.
