Description

This spare handle for coffee maker is made of grey aluminum and designed for a capacity of one cup, guaranteeing durability and a professional aesthetic finish in its bar equipment.

Technical characteristics

- Materials: Aluminium light alloy
- Colour: Grey
- Capacity: 1 cup
- Usage: Replacement of handle for coffee maker

The piece offers optimal thermal resistance and a light weight that facilitates handling during the preparation of hot drinks, maintaining structural integrity under continuous use in professional kitchen or cafeteria.

Its ergonomic design ensures a secure and comfortable grip for the user, avoiding accidental burns when handling containers with liquids at high temperatures on a regular basis.

For installation, remove the old handle from the body of the coffee maker and lace this new piece ensuring that the joints are perfectly aligned before fixing it definitively for optimal operation.

Specifications

Colour	Grey
