Description

The Pomo Input Handlock is an internal and external security handlebar system that combines brassed aesthetics with advanced functionality for privacy and access control. Its adjustable lace technology allows a versatile installation on various doors, ensuring a precise and durable fit.

Technical characteristics

- Polished golden matted finish
- Adjustable lace 60/70mm
- Rosette 65mm
- Handle length 100/120mm
- Loud door compatible 30/55mm
- Metal body steel or zamak
- Aluminium handle
- Includes set 3 brass keys
- Installation kit with screw and lock

This handlebar offers superior security benefits by allowing privacy condemnation inside and key closing outside, protecting private spaces without compromising the elegance of the design.

The installation is easy thanks to the kit included with screwdriver and locksmith, adapting to door thicknesses between 30 and 55 millimetres using its precise adjustment system.
