Description

The 12×63 mm Vatton M14 diamond drill is a professional tool designed to drill hard materials such as marble, ceramic, porcelain, granite and natural stone with high precision.

Technical characteristics

- Cutting power: Marble, ceramic, porcelain, granite and natural stone.
- Drill diameter: 12 mm.
- Total length: 63 mm.
- Thread: M14 compatible with standard angular grinders.
- Leading technology: Diamantada of great hardness for quick and precise drilling.
- Working mode: Suitable for dry drilling, optimizing heat dissipation.
- Body: Reinforced metallic for greater stability and durability.
- Recommended speed: 8,000–12,000 RPM according to the perforated material.

This tool guarantees clean and efficient results in plumbing, electricity, installation of accessories and general reform work, reducing execution times.

The installation is simple: adjust the speed of the grinder within the recommended range according to the material and apply constant pressure without forcing the tool to prevent premature damage or breakage.

Specifications
