Description

The 30×60 mm Vatton M14 diamond drill bits are an industrial drilling tool designed to work with hard materials such as marble, ceramic, porcelain, granite and natural stone. Its state-of-the-art technology ensures quick and accurate cutting in plumbing, electricity and renovation applications.

Technical characteristics

- High hardness diamond tip for efficient drilling.
- Cutting dimensions: 30 mm in diameter and 60 mm in total length.
- M14 screw compatible with standard angular grinders.
- Recommended working speed between 8,000 and 12,000 RPM according to the material.
- Reinforced metal body that ensures stability and prolonged durability.
- Optimized for dry drilling, facilitating dissipation of generated heat.

This tool offers superior performance by allowing clean holes to be made without the need for water, reducing the running time on site. Its robustness makes it a reliable choice for professionals who demand precision and endurance in each task.

The installation is simple: it is attached directly to the standard angular grinder using its M14 thread. It is recommended to adjust the speed of the engine according to the type of stone to avoid overheating and ensure the service life of the diamond, thus ensuring safe and efficient work.

Specifications

High	3
Diameter	30 mm
EAN	8425160498689
Measures	3 x 6
Weight (kg)	0.005
Revolutions per minute (RPM)	8.000-12.000
