Description

The Handlock Bathroom Pomo is a security and privacy accessory for bathrooms, designed with handle technology that allows opening from the inside without the need for a key. Its mechanism guarantees automatic unemployment in the event of an emergency, while the outside has a conviction to ensure the user's privacy.

Technical characteristics

- Bright brass finish in polished and reflective gold color.
- 65mm rosette with adjustable lace between 60/70mm.
- Handle length available in 100mm or 120mm.
- Door thickness compatible between 30mm and 55mm.
- Metal body made of high strength steel or zamak.
- Internal security unemployment system with external condemnation for privacy.

This knob offers a robust solution for spaces where safety is a priority, combining functionality with an aesthetic design that increases the value of sanitary furniture. Its metal construction ensures durability over time.

The installation is simple thanks to the kit included with screwdriver and specific locksmith. It is recommended to adjust the rosette according to the thickness of the door to ensure optimal and safe operation.
