### Description

The 12-litre Mochila Akhuo Sprayer is a professional tool designed for the precise application of plant protection in reduced spaces such as gardens and orchards. Its manual pump technology ensures a powerful and controllable jet, essential for effective treatments.

#### Technical characteristics

- Tank capacity: 12 liters
- Type of drive: Manual pump
- Construction materials: Plastic resistant
- Adjustment system: Flow and spray type regulation
- Includes accessories: Filter, cap, trigger, nozzles, belt, fastening clips, lance and hose

This equipment allows to apply herbicides and fungicides efficiently, ensuring a uniform coverage in treated plants. Its ergonomic design facilitates prolonged handling without generating excessive fatigue in the operator.

The installation is simple: the hose is connected to the lance, the belt is adjusted for a comfortable support and the filter is checked before filling the tank with the corresponding product. Basic maintenance involves cleaning nozzles after each use to avoid obstructions.
