Compact Flame Retardant Polyurethane Foam 750ml Gun

Brand: ALFA

Reference: ALFA 49939

750ml single-component container for gun, designed to seal and isolate holes under construction. Fireproof foam with high thermal resistance, easy sanding and paint after drying. Versatile adhesion on various materials, ideal for quick assembly and professional technical applications in the building sector.

Description

The 750ml compact flame retardant polyurethane foam is a monocomponent expansion system designed to seal, isolate and fill holes in construction materials. Its advanced technology ensures superior resistance to high temperatures and effective adhesion to all types of surfaces.

Technical characteristics

- Capacity: 750ml
- Type: Single component expansion
- Property: Ignifugal
- Resistance: High temperatures
- Post-processed: Soft and paintable
- Accession: Universal on multiple materials

This product offers key benefits such as efficient thermal insulation, removal of cold bridges and protection against the spread of fire in structures. Its versatility allows applications both indoors and outdoors, ensuring lasting performance.

The installation is simple by means of a pistol, applying directly to the areas to be sealed. Once expanded, it is recommended to dry completely before proceeding to sanding or final paint to obtain the best aesthetic and functional results.
