Description

The tubular Handlock office knob is a security and access control system designed for corporate environments, combining robust functionality with a premium aesthetic finish. Its dual mechanism technology allows free opening from the inside and secure locking by key from the outside, guaranteeing the privacy and protection of the facilities.

Technical characteristics

- Polished golden matted finish
- Inside knob with free passage
- Exterior knob with key lock
- Includes set of 3 brass keys
- Adjustable lace 60/70mm
- Rosette 65mm
- Diameter of the knob 51mm
- Compatible door thickness between 30/50mm
- Metal body in steel or zamak
- Includes installation kit with screwdriver and locksmith

This device offers strict access control, protecting sensitive documents and restricted areas without compromising the aesthetics of office furniture. Its metal construction ensures durability in daily intensive use.

The installation is easy thanks to the complete kit provided. It adapts to doors with thickness between 30 and 50 mm by means of the adjustable lace system, allowing fast and safe assembly without the need for additional specialized tools.
