Description

The Handlock Security Shield is a brass device designed to strengthen lock security, offering a robust physical barrier against forced opening attempts and effectively protecting the cylinder.

Technical characteristics

- Brass finish with golden tone
- Closed design for maximum protection
- EC certification guaranteed
- Suitable for wooden and metal doors

Its superior strength allows it to be installed on any door that requires a high level of security, reinforcing the existing lock without the need for complex structural modifications. This mechanical reinforcement guarantees the integrity of the locking system against direct external attacks.

The installation is simple and direct, adapting to the standard hardware of the industry. Its aesthetic finish in brass is perfectly integrated with golden tones, combining technical functionality with an elegant design that improves the appearance of the door frame without altering its original aesthetics.

Specifications

Colour	Dorado
EAN	8425160499532
Material	Metal
Weight (kg)	0.235
