Description

The 200mm Self-Adjustable Vatton Front Clamp is a professional tool designed to handle parts precisely in reduced spaces. Made of chrome-vanadium steel, it guarantees durability and wear resistance during demanding industrial operations.

Technical characteristics

- Material: Chromium-vanadium steel
- Total length: 200mm
- Front grip capacity: 4 to 22mm
- Front gag with strong teeth
- High ratio transmission system in tips
- Side grip for mouth widths from 4 to 22mm
- Three-point mechanism for flat pieces

This device offers a large capacity for front and side fastening, allowing variable diameters and widths to be handled firmly. Its optimized design facilitates the work in flat components by means of a three-point mechanical system that ensures stability.

The installation simply requires opening the tool and placing the gag on the target piece. The adjustment is performed manually by turning the front knob until the necessary pressure is achieved, allowing the part to be released easily when the mechanism is released.

Specifications

EAN	8425160499549
Long	200mm
Length	200m
Material	Steel
Weight (kg)	0.244
