Description

The Extendable Fixed Window Mosquitera is an effective solution to protect the home from insects without compromising natural lighting. Made of white, it combines functionality and aesthetics, allowing a solar light transmission of more than 90% while maintaining safety against mosquitoes.

Technical characteristics

- Closed dimensions: 50x40 cm
- Open dimensions: 92x40 cm
- Water resistant material
- Light transmission: >90%
- Fast installation in 30 seconds

This system guarantees an indoor environment free of pests, ideal for spaces that require constant ventilation. Its extendable design adapts perfectly to standard windows, offering an invisible but effective barrier against the entry of annoying insects.

The installation is extremely simple and does not require specialized tools. Just attach the anchor points to the window frame and deploy the mesh, achieving a complete assembly in less than half a minute for immediate use.

Specifications
