Description

The Onlex PC 16A 3T USB Type-C adapter is a multifunctional electrical solution designed to optimize power distribution in high-demand spaces. It integrates three safe Schuko sockets together with modern cargo ports, allowing to power equipment simultaneously without saturating the existing circuits.

Technical characteristics

- Maximum power: 3840W (250V x 16A)
- Main take: 3 Schuko sockets with ground connection
- Load connections: Built-in USB and USB Type-C ports
- Material: Resistant white polycarbonate
- Protection: Children's armor incorporated in the sockets
- Operating voltage: 250V AC
- Nominal current: 16 Amps

This device facilitates energy management in homes, offices and workshops, ensuring that all appliances receive stable and safe food. The combination of standard sockets and direct load ports eliminates the need to use multiple extensions or external loaders.

The installation is immediate; simply connect it to a conventional wall socket and distribute the energy to the necessary equipment. Its compact design allows it to be located in any environment where

greater electrical connection capacity is required without compromising aesthetics or safety.

Specifications

Rated current (A)	16
Colour	White
EAN	8425160249465
Material	Polycarbonato
Weight (kg)	0.77
Power (W)	3840
Nominal voltage (V)	250V AC
