Description

The Onex Titanium Horizontal 3 Elements recessed frame is an electrical distribution system designed to organize and protect cables in residential or commercial facilities. Its robust technology ensures an orderly management of the internal infrastructure, ensuring the safety and functionality of the network.

Technical characteristics

- External finish in high strength ABS.
- Horizontal configuration for standard mounting.
- Capacity to accommodate 3 wiring elements simultaneously.
- Designed for recessed installation in partition or walls.

This framework offers a durable solution that protects drivers against mechanical and environmental damage, ensuring the correct functioning of connected devices. Its robust structure facilitates integration into reduced spaces without compromising the capacity of the electrical system.

The installation is simple and quick, allowing efficient access to cabling without the need for complex specialized tools. Its compact design facilitates its integration into reduced spaces without compromising the functionality of the electrical system.

Specifications

Colour	Titanio
EAN	8425160251093
Material	ABS
# Elements	3 elementos
Weight (kg)	0.0587
Type of installation	Flush-mounted
