Description

The Onlex Horizontal 5-Element Titanium recessed frame is a support structure designed to integrate five modules of the Onlex series into a solid and aesthetic set. Made of high strength materials, this system guarantees a secure and durable fixation for lighting or industrial signage elements.

Technical characteristics

- Composition: 5 integrated modular elements
- Materials: High quality ABS and resistance
- Design: Horizontal recessable frame
- Compatibility: Exclusive plugin for the Onlex series
- Fixing system: Fast mechanical interlocking

This frame offers a robust solution for installations that require a clean and professional finish. Its ABS construction ensures optimal protection against impacts and wear, maintaining the integrity of the assembly over time in demanding environments.

The installation is simple and quick, allowing efficient assembly without technical complications. It is only necessary to follow the standard fixing instructions to integrate the modules correctly within the horizontal frame, achieving precise alignment.

Specifications

Colour	Titanio
EAN	8425160251109
Material	ABS
# Elements	5 elementos
Weight (kg)	0.1006
