Product sheet

Onlex 3-socket power base with illuminated switch black cable 3m

Brand: ALFA

Reference: ALFA 25236

Black Onlex socket base with 3 earth sockets and 3 meter insulated cable. Includes integrated ON/OFF light switch for safe control. It supports 250V voltage and 16A amperage, ensuring stable electrical distribution in homes, offices or workshops by feeding multiple devices simultaneously with integrated child protection.

Description

The Onlex 3 socket socket with black lighted switch cable 3mt is a compact electrical solution designed to distribute energy safely and efficiently in homes, offices or workshops. It incorporates integrated switch technology with LED lighting, allowing for immediate visual control of the ignition state without the need to manipulate the plugs directly.

Technical characteristics

- Nominal voltage: 250V
- Maximum amperage: 16A
- High strength insulated cable: 3 meters
- Colour: Black mate
- Includes ground connection at each outlet
- Child protection integrated into the sockets
- ON/OFF switch with indicator light

This device facilitates the simultaneous power of multiple electronic devices, reducing cable disorder and improving electrical safety in shared spaces. Its robustness makes it suitable for environments with intensive use or variable conditions.

The installation is simple: the cable is connected to a fixed power supply and the base is placed where

necessary. The central switch allows you to turn off all sockets at once, saving energy and simplifying daily operation in homes, offices or workshops.

Specifications

Rated current (A)	16
Colour	Matt black
EAN	8425160252366
Intensity	16A
Long	3mt
Length	3 metros
Material	ABS
Weight (kg)	3.026
Nominal voltage (V)	250V
