Onlex Black Base 3T Cable/Switch 5MT

Brand: ALFA

Reference: ALFA 25285

Onlex 3-outlet base in black color with integrated ON/OFF switch and child protection. Features ground connection for electrical safety, isolated 5-meter high-resistance cable, 250V voltage, and 16A amperage. Designed to simultaneously power multiple devices in homes, offices, or workshops.

Description

The Onlex Black Base 3T Cable/Switch 5MT is a compact electrical solution designed to safely and efficiently distribute energy across multiple points. Equipped with three outlets, an integrated switch, and robust cabling, it facilitates simultaneous power supply for various devices without complications.

Technical Features

- Three Onlex outlets with ground connection
- High-resistance and durable 5-meter isolated cable
- Nominal voltage of 250V for stable operation
- Maximum amperage of 16A ensuring sufficient power
- Integrated illuminated ON/OFF switch for visual control
- Integrated child protection in outlets
- Matte black color with resistant finish

This base allows connecting and powering several appliances simultaneously, optimizing space in environments where electrical mobility is key. Its robust design ensures safe electrical distribution for moderate to high loads.

Installation is simple: connect the cable to the main network or an available outlet, activate the switch, and place devices in the outlets. No specialized tools or complex configurations are required, offering an immediate and functional solution for any domestic or professional electrical need.

Specifications

Rated current (A)	16
Colour	Black
EAN	8425160252854
Long	5mt
Material	ABS
Weight (kg)	0.671
Power (W)	3680
Nominal voltage (V)	250V
