Onlex 2-socket Plug Base with Switch IP54 Cable 1.5m

Brand: ALFA

Reference: ALFA 25360

Onlex socket base with two IP54 protected sockets, integrated light switch and 1.5m cable in isolated PVC. Designed for 250V voltage and 16A amperage, it includes ground connection and safety folding cap with automatic locking.

Description

The Onlex plug base is a compact electrical device designed to provide safe and flexible distribution in environments that require mobility or environmental protection. Its technology integrates light switch, robust wiring and ground system, ensuring reliable use in works, workshops and homes.

Technical characteristics

- Power: 250V / 16A
- Level of protection: IP54
- Cable: 1.5m high strength insulated PVC
- Material: Black with folding safety cover
- Connection: 2 sockets with grounding
- Functionality: Integrated and luminous ON/OFF switch
- Security: Automatic child protection

This equipment provides lighting indicative of the ignition state and ensures electrical distribution through ground connections, reducing risks in applications with occasional humidity or dust. IP54 protection allows its installation in outdoors or industrial areas where contact with splashed water or dust is frequent, maintaining system integrity.

The installation is easy thanks to its 1.5m pre-installed cable and compact design, allowing a quick connection without the need for additional tools for daily operation. The folding lid with automatic closure avoids unauthorized accesses, complying with electrical safety regulations in shared spaces.

Specifications

Rated current (A)	16
Colour	Black
EAN	8425160253608
Long	1,5 m
Material	ABS
Weight (kg)	0.474
Power (W)	250
Protection	IP54
