Onlex 4-socket base with illuminated switch black cable 3m

Brand: ALFA

Reference: ALFA 25362

Onlex 4-take black socket base with integrated ON/OFF switch. It has ground connection for electrical security, insulated cable of 3 meters and child protection. It supports 250V and 16A, allowing multiple devices to be powered simultaneously in homes, offices or workshops with high durability and stability in energy distribution.

Description

The Onlex Black 4T plug base is a compact electrical solution designed to deliver energy safely and efficiently in residential or commercial spaces. It integrates four earth-connected sockets, an illuminated ON/OFF switch and a high-strength cable, optimizing the management of multiple devices simultaneously.

Technical characteristics

- Nominal power: 16 Amps
- Operating voltage: 250 Volts
- Cable included: 3 meters high durability insulation
- Security: Integrated child protection and grounding in all sockets
- Switch: Illuminated for status display ON/OFF
- Material: Resistant black housing

This equipment allows to power several devices simultaneously without compromising the stability of the electrical grid, ensuring continuous and safe operation in environments with high energy demand. Its robustness makes it suitable for offices, workshops or temporary events where flexible distribution is required.

The installation is simple: connect the cable to the main source and activate the central switch to

energize the sockets. Its robust design facilitates its use in homes or offices where reliable and durable electrical distribution is required.

Specifications

Rated current (A)	16
Colour	Black
EAN	8425160253622
Range	Residencial
Long	3mt
Material	ABS
Weight (kg)	0.506
Power (W)	16
Nominal voltage (V)	250 Voltios
