Product sheet

Vatton 7 Bar Analog 12V Compressor

Brand: ALFA

Reference: ALFA 50489

The Vatton analog compressor operates at 12V with a maximum pressure of 7 bar and 100 psi. It has analog gauge, 3 meter power cable and 60 cm hose. Includes adapters for tires and balloons. Designed for road emergencies or domestic inflation, it offers superior LED lighting and lighter-type connection.

Description

The Vatton Analog Compressor is a portable 12V device designed to raise air pressure on tyres and other accessories by direct connection to the vehicle's electrical system. Its compact technology allows efficient and safe operation, ideal for preventive maintenance or quick repairs.

Technical characteristics

- Nominal power: 12V DC
- Maximum working pressure: 7 BAR (100 PSI)
- Power connection: Light type connector
- Long power cable: 3 meters
- Long air hose: 60 cm
- Gauge: Analog for visual control
- Lighting: Upper LED light

This equipment offers a versatile solution for inflating car tires, motorcycles, bicycles, as well as sports balls and domestic compressed air equipment. Its precision in pressure control ensures optimal results without over-effort.

The installation is simple: connect the cable to the vehicle lighter, turn on the switch and attach the hose to the corresponding valve. The LED light facilitates its use under low luminosity conditions, ensuring a safe operation in any environment.

Specifications

EAN	8425160504892
Weight (kg)	0.83
Nominal voltage (V)	12V
Current type	DC
