Description

The Vatton bimetal crown set is a professional tool designed for precise cuts in diverse materials such as wood, plastics, fine metals and PVC. Its cobalt HSS alloy technology ensures high heat and wear resistance during intensive use.

Technical characteristics

- Crown size: 19, 22, 29, 35 and 38 mm
- Materials: Bimetal HSS with cobalt
- Hole included: 3/8" hex (9.5 mm)
- Adapter: 1/2"-20 to 5/8"-18
- Teeth: Hardened for quick cuts
- Case: Rigid transport

Hardened teeth facilitate clean and efficient cuts in plumbing and general work, keeping the sharpness of the edge even under difficult conditions. Its compatibility with standard drills and screwdrivers makes it a versatile accessory for any workshop.

The installation is simple: insert the crown into the hexagonal spindle and tighten with the key included. Make sure the adapter is correctly mounted if you use tools with different threads to ensure safe and stable operation during cutting.

Specifications

High	7
Width	19, 22, 29, 35 y 38 mm
EAN	8425160507008
Long	19, 22, 29, 35 y 38 mm
Material	Metal
Weight (kg)	0.58
