Description

The 250mm Vatton Multipurpose Sierra is a professional tool designed to make precise cuts on various metal materials. It has a body made of rigid high strength plastic and an integral tempered carbon steel sheet.

Technical characteristics

- Body: Rigid plastic of great resistance.
- Sheet: 24TPI carbon steel.
- Temple: Full blade for long duration.
- Accuracy: 90° cuts guaranteed.
- Design: Compact and light.

Its integral tempering facilitates cutting with great ease, allowing to work all kinds of metals without excessive effort. The high quality blade ensures a durable sharpening that maintains operational efficiency for long periods of continuous use in workshops or works.

For installation, simply place the cutting blade in the corresponding groove of the body and secure it with the fixing screw. Always keep the guides clean to avoid traffic jams. This saw is essential for metal carpentry works, structural repairs and small parts manufacturing where straight and clean cuts are required in reduced spaces.

Specifications

EAN	8425160507077
Long	250 mm
Measures	250 mm
Weight (kg)	0.0887
