Vatton Premium 10" Pressure Pliers Chrome Vanadium

Brand: ALFA

Reference: ALFA 50924

The 10" Vatton Premium pressure jaw has a round mouth for firm mounting and welding work. Its head is made of vanadium chrome steel, while the body uses high-strength carbon steel.

Description

The 10" Vatton Grip Premium clamp is a high-precision clamping tool designed for demanding industrial operations. Its round biting technology ensures a firm and secure grip on cylindrical parts, facilitating assembly, dismantling and professional maintenance without damaging components.

Technical characteristics

- Head made of vanadium chrome steel for maximum hardness.
- Structural body in high resistance carbon steel.
- Round 10 inch fastening mouth.
- Adjustable locking system to adapt to different measures.
- Quick release lever for immediate unlocking.
- Polished finish that improves wear resistance and corrosion.

This tool offers a stable hold during welding, mechanical repair and industrial assembly work. Its robust design allows high forces to be applied while maintaining precision in each movement, essential for critical operations where failure is not an option.

The installation requires placing the gag on the target part and adjusting the locking mechanism to achieve the desired voltage. The handling is facilitated by the release lever, allowing a rapid change between parts without excessive physical exertion or loss of time in minor adjustments during the work cycle.

Specifications

Diameter	250 mm
EAN	8425160509248
Long	250 mm
Weight (kg)	0.5833
