Description

The 10-inch Vatton Multifunctional Angular Scissor is a professional tool designed to execute precise cuts at variable angles on profiles and mouldings. Its adjustable system technology allows to adjust the inclination up to 45°, facilitating complex work with great accuracy.

Technical characteristics

- Body made of high strength chromed steel.
- Stainless steel knives for clean cuts.
- Total length of 10 inches.
- Adjustable cutting angle up to 45°.
- Ergonomic handle with soft touch.
- Graduated base for precise angular adjustment.

This tool guarantees optimal results when working with mouldings, metal profiles, joints and wooden slats. Its robustness ensures a prolonged use without losing efficiency in the execution of each cut, being essential in carpentry and installations.

The installation is immediate; simply open the handle and adjust the graduated base according to the required angle before applying pressure on the material to be cut. Its design allows quick regulation to adapt to different work needs without additional complications.

Specifications

EAN	8425160510015
Long	10 pulgadas
Weight (kg)	0.603
