Description

The SoftShell Winter Series Jacket is a protective workwear garment designed for demanding winter conditions. Its combined fabric technology guarantees waterproofing and breathability, offering superior thermal comfort during extended outdoor shifts.

Technical Features

- Fabric weight: 310 g/m²
- Water resistance: 8,000 mm
- 3-layer construction with intermediate TPU membrane
- Outer composition: 94% polyester and 6% elastane
- Workwear protection category: I
- Cuffs with adjustable Velcro closures
- Side and front pockets with waterproof zippers
- Elastic waist with drawcord type cord

This jacket provides high resistance to weather and mechanical wear, effectively protecting against moderate rain, snow, and adverse conditions in industrial environments. Its design in grey, black, and orange details ensures visibility and functional style.

Installation is immediate upon wearing, utilizing the adjustable waist for an ergonomic fit that facilitates

movement without compromising thermal protection or fabric waterproofing during daily work.
Adjustable cuffs reinforce heat retention in cold climates.
