Onlex 4-socket power base with switch 5m

Brand: ALFA

Reference: ALFA 25424

Black Onlex socket base with 4 sockets and ground connection for electrical safety. Includes ON/OFF integrated switch with indicator light. Insulated cable of 5 meters supports 250V and 16A. Built-in child protection enables multiple devices to be supplied simultaneously in homes, offices or workshops without risk of overload or electrical accidents.

Description

The Onlex 4 socket socket with switch is a compact electrical solution designed to distribute energy safely and efficiently in homes, offices or workshops. It incorporates integrated switch technology with light indicator, allowing an immediate control of the power supply without the need to move towards the main frame.

Technical characteristics

- Maximum power: 4000W (250V x 16A)
- Number of sockets: 4 Schuko plugs with ground connection
- Cable length: 5 meters high resistance insulation
- Body material: Resistant black plastic
- Child protection integrated into the sockets
- Integrated ON/OFF light indicator

This device facilitates the simultaneous supply of multiple devices, optimizing space and reducing the load on fixed circuits. Its robust design ensures reliable operation both in domestic conditions and in demanding professional environments where electrical stability is required.

The installation is simple: connect the cable to the available power grid and activate the central switch to energize the sockets. The luminous indicator visually confirms the state of operation, ensuring an

intuitive and safe handling of the equipment during its prolonged use.

Specifications

Rated current (A)	16
Colour	Black
EAN	8425160254247
Long	5mt
Material	Plástico
Weight (kg)	4.381
Power (W)	4000
